

*Thursday 24<sup>th</sup> November 2016*

**FREE SEMINAR**  
*Cyber Fraud, Cyber Crime and Professional  
Indemnity Insurance*

Cyber fraud and crime are key concerns in today's legal practice.

For criminal practitioners cybercrime is the future – organised crime, online fraud, commercial espionage, sabotage and cyber-stalking but what does it mean for the rest of us?

What are the effects of cybercrime on businesses, SME's, private clients and mixed practice practitioners? For example, has a Computer Misuse offence been committed in your Family, Employment or Civil case?

Learn what your firm's PI Policy actually covers, common causes of cyber claims and how this will affect the PI market in the next few years. Find out about methods used by fraudsters to target client money and understand some key preventative measures you can take to safeguard your clients, your business and your reputation.

An analysis of what offences are being committed and how. Who are the cybercriminals, who are the targets, what are the motivations and what outcomes do they seek? Hear about the scale of the problem and its exponential growth.

Speakers include **William Harbage QC**, **Kevin Barry** and **Sarah Gaunt** from the Serious and Complex Crime department at the 36 Group. **Scott Thorne** from Miller Insurance and **Lloyds Bank**.

Space is limited so please book early.

**Seminar: 6pm for 6.30pm start with drinks and canapés after the event**

**The 36 Group 36 Bedford Row London WC1R 4JH**

(CPD Reference: AJD/WLLS)
